

Ellepots® are root penetrable, bio-degradable papers suited for propagation of cuttings and seedlings. Trays allow air admission in the bottom of the pots & encourages growth immediately after sticking or seeding. Rooting and finish time is reduced by 3-12 days. Trays fit standard size benches and are suitable for all irrigation systems. The well dimensioned drainage system in the trays ensure maximum air passage from the top to the bottom of the pot.

Ellepots® from Meadowridge are filled with Sun-Gro Ellepot® mix which is 80% professional peat and 20% coarse perlite and comes factory direct with a starter lime and fertilizer.

Reduces grow time and allows air flow

Simplify with Ellepots® from Meadowridge, pre-made, in the trays, ready to use!

Price & Order Information

Size	Price/ Tray*	Pots (Cells)/Tray	Pallet Qty
40 mm (1 ⁵ / ₈ ")	\$ 2.25	50	200
70 mm (2 ³ / ₄ ")	\$ 3.14	18	150
